VENOME STIMULATE

STIMULATION AND RECONSTRUCTION
OF SKIN STRUCTURES

VENOME STIMULATE PEPTIDES COMPLEX

5 ml

INDICATIONS

Forehead expression wrinkles (glabellar lines)

Crow's feet

Nasolabial folds

Vertical lip lines

Chin area

Skin revitalization

Venome Stimulate Peptides Complex is a revitalizing product with an advanced formula containing **four peptides** which directly help **inhibit** the transmission of electrical impulses to the muscles by neurotransmitters. They **suppress muscular contractions** and thus smooth out fine lines, which are the result of repeated use of facial muscles.

The complex additionally **stimulates fibroblasts** to produce new protein fibers, such as collagen and elastin, which help the skin stay firm and plump.

The product also contains a marine microalgae extract and hyaluronic acid — this combination **moisturizes and revitalizes** skin. Ascorbic acid significantly reduces the amount of oxygen free radicals, slowing down their degenerating impact on protein fibers.

SKIN
REVITALIZATION

INTENDED USE

Ingredients contained in the product suppress **acetylcholine** release, which significantly weakens muscle contractions in vivo, preventing the formation of expression lines and wrinkles. Additionally, they boost collagen and elastin synthesis and limit the formation of **advanced glycation** end products (AGEs), thus making the skin look radiant and youthful.

HOW ARE EXPRESSION LINES FORMED?

Every day, facial **muscles** make around **15 thousand** movements which are **triggered** by nerve **impulses** sent by the **brain** to the target **muscles**. When nerve impulse passing along afferent fibers reach a myoneural (neuromuscular) **junction**, intense **acetylcholine** release is observed. Acetylcholine is a **neuro-transmitter** that distributes the signal across the whole muscle to activate it, resulting with its full **contraction**. The repetition of this pattern causes constant compression and decompression of the skin, which results with the formation of **new expression lines** and the **progression** of existing ones.

VENOME STIMULATE BOOSTER HA 6%

5 ml

INDICATIONS

Dry, sallow skin

Deep hydration

Smoothing the skin

Revitalization

Increasing the tension and elasticity of the skin

DRY,
SALLOW SKIN

DEEP
HYDRATION

SMOOTHING
THE SKIN

REVITALIZATION

INCREASING THE
TENSION AND
ELASTICITY OF
THE SKIN

INTENDED USE

Hyaluronic acid in a **concentration of 6%** deeply moisturizes and smoothes the skin, strongly **revitalizing** it.

Venome Stimulate Booster is a product containing **Hyaluronan Sodium**. It is a product with strong **hygroscopic properties**, making it one of the most effective ingredients to moisturize the skin and prevent excessive loss of water from its surface. Helps to maintain the stability of structural proteins: collagen and elastin, thanks to which it improves **tension** and **elasticity**, ensuring thus a youthful appearance.

Professional use only

VENOME STIMULATE COLLAGEN

5 ml

INDICATIONS

Dry, sallow skin

Hydration

Loss of shine

Slowing down the aging processes

Improvement of skin density

Help in reducing stretch marks, scars and wrinkles

DRY,
SALLOW SKIN

HYDRATION

LOSS OF SHINE

SLOWING DOWN
THE AGING
PROCESSES

IMPROVEMENT
OF SKIN DENSITY

HELP IN REDUCING
STRETCH MARKS,
SCARS AND
WRINKLES.

INTENDED USE

The preparation helps to slow down the aging processes, enables deep hydration, restoring the skin's healthy glow.

Tetrapeptid-2, an active peptide that increases firmness and elasticity, thanks to the stimulation of the production of one of the main skin components - **collagen**. It eliminates the elastose formed with age, reducing the number of wrinkles and the density of wrinkles. **Hydrolyzed collagen**, the active ingredient that improves skin structure by replenishing structural protein deficiencies and increasing hydration. Helps **reduce** wrinkles, stretch marks and scars. **Sodium hyaluronate**, a substance that maintains proper hydration of the skin due to its strong **hygroscopic** (water-binding) properties.

Professional use only
